VIR is a strong association
with **strong members** – because we can only **push forward the**
digital tourism industry through **joint dialogue.**

WHO WE ARE

We – the Verband Internet Reisevertrieb – are the interest group of the German digital tourism industry and represent the industry in public.

Not only are we a contact point for the **industry**,
but also for **consumer**, **media** and **politics**.

A large number of the most important industry players have joined us as members. They are split into so called clusters: OTA (online travel agencies), supplier & tour operators, service & travel technology providers as well as start-ups. In total they sum up to more than 70 companies. We push forward new developments and sensitize the travel industry for important topics such as innovations or data quality. We observe the market, media coverage and the legal developments in tourism and e-commerce. Furthermore, we support young academics as well as new businesses to push the development of the industry.

WHAT WE DO FOR YOU

- 🔑 **Networking platform:** VIR is a platform to network and a forum where its members can exchange experiences and know-how. Our internal events constantly offer you a relaxed and informal atmosphere to network. We connect you with potential business partners.
- 🔑 **Information:** We keep you updated about relevant developments for your company and the industry. Furthermore, we respond to your individual topics – our advisory board supports us in various segments.
- 🔑 **Industry representation:** We advocate for the interests of our members in terms of industry relevant topics. Whether it concerns product, legal issues or media – we conciliate, counsel and inform.
- 🔑 **PR representation:** We are a contact point for media in terms of the digital tourism industry. Our objective is to create trust in the digital tourism industry and its stakeholders.
- 🔑 **Political representation:** Michael Buller represents the political interests of the industry at the committee of tourism of the Federal Ministry for Economy and Energy. For EU based political decisions, we are in regular communication with ET TSA. Furthermore, we constantly get involved with ongoing political topics.

- 🔖 **Legal affairs:** We inform you about ongoing legal developments relevant for the industry. Through a strong collaboration with the law firm BEITEN BURKHARDT, we are also able to provide you with concrete advice for action and workshops.
- 🔖 **Market research:** VIR funds and organizes market research in the tourism industry. Our annual publication “VIR Data & Facts about the online travel market” includes numerous important data about the German leisure tourist. With regular reports we keep you updated about the current market developments. In total, these market research studies are worth 75.000 Euros.
- 🔖 **Support of innovation:** There is no progress without innovation. We inform and inspire by bringing new products and business concepts to your attention. With the VIR Online Innovation Days and the start-up competition “Sprungbrett” we offer you a unique annual event focused on innovation. During the course of the year, the event format “start-up nights “ offer the possibility to get into contact with the industry’s start-ups. In addition, we provide you with access to our start-up member network.
- 🔖 **Support of young academics:** We work in strong collaboration with universities to inspire young and motivated talents of tomorrow for the digital tourism industry. With the initiative “Search4Talents”, we bring together tourism university students with the industry. For instance, students can join tours to selected tourism companies at ITB Berlin or bus tours to potential employers. We also update our blog regularly with job advertisements for tourism students.

TOGETHER FOR TOURISM

- ✦ **IDEA** VIR is a co-initiator of the Action Alliance Tourism Diversity. This is an alliance of currently 28 associations representing all areas of the diverse tourism industry. Tourism can only function in the interaction of this diversity. If important sectors of the travel industry disappear, travelling as we live and love it will no longer be possible. That is why our Action Alliance exists.
- ✦ **OBJECTIVE** We have set ourselves the goal of preserving the tourism industry as a whole and achieving fair promotion for every market participant in the industry, thus ensuring the network as a unit also in the future. Therefore, as a network, we act together and with one voice, especially with regard to political demands.
- ✦ **BACKGROUND** Travel and holiday needs are diverse and individual. The range of offers and providers associated with this makes tourism a complex landscape and a strongly interlinked network. This allows customers not only a wide choice, but also the combination of different offers and use of different booking channels.

Starting with the purchase decision, whether via an online portal or a stationary travel agency, the choice of a package tour via a tour operator or the booking of individual services, on to the preferred means of transport:

Aktionsbündnis **TOURISMUS** **VIelfalt**

Flight, bus trip or rental car, up to the option when choosing accommodation, i.e. hotel, holiday home/holiday flat or campsite. This selection alone and their possible combinations already show the multitude of providers, organisers and providers and service providers involved. Processes, comparisons and bookings are only made possible by various technical providers and systems in the background. Here you can get an insight into the „engine room“ of tourism: www.tourismos.net

But that's not all, because customers also use excursions, means of transport, restaurants and many other facilities and offers in the holiday destination itself. These are also directly related to the trip - because a holiday destination without an experience or offer has little appeal.

VIR MEMBERSHIP

- Members may be legal entities and unincorporated companies according to private law that are working in or for the digital tourism industry. They must identify with and promote the goals of the association. The members of the VIR are organized into four clusters: OTA, Supplier and Tour Operators, Service and Travel Technology Providers as well as Start-ups.
- Each member becomes a member of a cluster at the same time. The interests of each cluster (with the exception of the start-up cluster) are represented by a chairperson elected by the members and a deputy in the committee of the VIR. The committee, together with the board, steers the activities of the association.
- The annual member fee totals 5,000 Euros for the clusters supplier and tour operators as well as service- and travel technology providers.
- For OTA the member fee depends on your turnover, starting with 5,000 Euros.
- For all three clusters an entry fee of 2,000 Euros applies.
- Start-ups only pay an annual fee of 200 Euros. Companies are considered start-ups as long as they have not been on the market for more than three years.

All membership information can be found in the articles of association on our website:
